

Clinical Librarians & Information Skills Trainers (CLIST)

Wednesday 25th May, 10:00-1.00pm
Bloomsbury Healthcare Library

Minutes

Present: Catherine Radbourne (Chair), John Nyman, Georgie Wildman, Yiwen Hon, Daniel Van Strien, John Clarke, Caroline Lynch, Michael Samuel, Joelle Kirby, Adam Tocock, Marisa Martinez Ortiz, Claire Jones, Ziba Nadimi, Sian Aynsley.

		Actions
1. Apologies for absence	Sarah Rudd, Michael Walne, Alan Fricker, Lisa Burscheidt, Catherine Wardle, Louise Wann.	
2. Minutes of the last meeting and matters arising	<ul style="list-style-type: none"> The planned 'Searching for Evidence' training day needs finalising. Possible venue of Kings College suggested (contact Claire Crowley), and date in October. Richard Osborn has indicated that there is some funding available for CLIST meetings (e.g. speaker costs, travel). CLIST should contact him in advance to request funding. CLIST and KSS collaboration: training provided by both groups to be opened up. KSS meeting taking place on 13th June in Ashford and open to CLIST members who wish to attend. Proposed CLIST twitter account: uncertainty regarding audience and usefulness. Knowledge for Healthcare hub, zone for librarians to help with CPD. 	<p>MW, CW, SW and JN to discuss</p> <p>SA to update CLIST website with KSS info</p> <p>LB/AA to discuss further</p> <p>Send any content suggestions to SA</p>
3. Feedback from the Staff Development group	<ul style="list-style-type: none"> No feedback. 	
4. Feedback from the I&LRWG	<ul style="list-style-type: none"> No feedback. SA to forward highlights to CL for inclusion in these minutes (below). <p>7 April 2016</p> <p>Free BL copyright-free paid (CFP) article trial is now ended. If libraries still need CFP articles they can order them if a) the BL cannot provide a Library</p>	

Privilege (LP) copy and/or b) the user needs the article for purposes other than individual private study or non-commercial research. 9,000 articles are available for the year. Discussions are underway to create a national NHS depository for all articles ordered under the CFP route.

Richard Osborn is investigating pricing options for Dynamed in the London/South East area

The NICE usage report was circulated. Points highlighted inc:

- List of ebooks within ProQuest Hospital Collection should be better promoted. Possibility they may be added to the LHL Catalogue
- ProQuest are looking for a nursing expert to help them create a webinar
- Use of Ovid has increased, possibly due to problems with HDAS. Lack of time, increase in use of point-of-care tools, clinical reference tools may also be contributory factors

Feedback from HDAS and NICE Evidence training session on Wed 23 March 2016:

- Beta version of new HDAS due in April - please use for all searches and report any problems
- Statistics are showing HDAS is primarily used by librarians (80%) so more work needs to be done to promote to end users
- eLearning modules are being developed for new HDAS
- Full functionality for saving results in NICE Evidence Search will be restored

London Resources

- Critical Care Medicine journal will be renewed for London and South East area
- A subscription for Nursing Times will also be taken for the whole of London. Likely that Nursing Times will go e-only in near future
- Sage: Clinical Rehabilitation and Palliative Medicine journals will likely be renewed as well as 6 Taylor & Francis journals
- BMJ Learning is being well-used and will likely be renewed with funding

from different areas of London. Nursing Times Learning was discussed - some Trusts have taken a sub and are gathering usage stats

- Medical Masterclass usage is increasing and will be renewed. There are plans to relaunch the 12 volume book collection as a digital collection
- 7 journals available through Virtual Facility Collection will be renewed and there are plans to scale up to whole of South East
- There was a discussion about Medicines Complete and whether it was possible to add to resources already in the collection (BNF/BNFc/Martindale/Stockley's Interaction)

Knowledge for Healthcare (KfH) Update

- Report for the year has been circulated to local groups
- Products developed in the last year include 1) guidance on delivering services to patients 2) Reports on streamlining document delivery and current awareness services 3) Learning Zone (available on KfH blog) 4) series of articles published in CILIP Update
- Richard Osborn leads the Resource Discovery Group and they have a number of targets to reach this year
- Louise Goswami will take more of a lead role on KfH in London/South East with support from Richard
- All new developments can be tracked on <http://kfh.libraryservices.nhs.uk/>

Finch pilot

- Funding for project has been difficult to find but 29 titles from Annual Reviews collection and one from the AAAS will be available via NHS IP

TRIP Premium

- HEE have funded TRIP Premium/TRIP Pro for a year. Need for promotional materials and usage stats. Richard is in discussion with Jon Brassey about these.

Visible Body

- Wolters Kluwer have proposed a London-wide quote for this resource. Trials in 2015 indicated difficulties with plugins but advantage is

	<p>it is a one-off purchase and apps are available.</p> <p>Stats from LHL Catalogue</p> <p>- Show that book requests are down. Journal requests slightly up on last year.</p>	
5. New Resources/ updates/HDAS redevelopment	<ul style="list-style-type: none"> • MyiLibrary e-book hub is being decommissioned on 31st May (unless purchased as a local subscription. • New HDAS interface (test site) is available. • Proquest: ongoing problems with searching Medline using the Proquest interface. Mapping not working unless correct term is entered. Plurals not working. CR encouraged reporting issues to NHS Evidence every time. • Guides to Ovid and EBSCO are available from many libraries. • Medical Masterclass and BMJ Learning have been renewed to April 2017. 	<p>All to report instances using "Contact Us"</p> <p>CR to circulate City's Ovid and EBSCO guides</p>
6. Advanced search training sessions	<ul style="list-style-type: none"> • CR reported that Richard Osborn has sent details of 2 advanced training sessions run by CRD at University of York and asked if there is interest in running them for CLIST. Igor Brbre (Brighton and Sussex LKS) has been in contact with Richard Osborn about them. The sessions are: "Advanced search techniques" and "Advanced search strategy design." <p>Example of an advanced search strategy design course</p> <p>http://www.yhec.co.uk/training/advanced-search-strategy-design/</p> <p>This course looks at how to design complex search strategies and complements our training on advanced search techniques. As the volume of published research grows it is becoming more challenging to identify efficiently studies performed according to specific methods or relating to broad topics. As well as increasing volumes of research, many research topics are complex and challenging to capture in search strategies. Examples of complex topics may include, but are not limited to, reviews of complex interventions, reviews requiring the identification of study designs other than RCTs, public health and social care topics, veterinary literature, food and feed safety research.</p> <p>Information professionals and others wishing to develop search strategies for complex topics face challenges in designing strategies which retrieve relevant material but are also efficient in numbers of records retrieved. As well as approaches to developing strategies to run in traditional bibliographic databases, increasingly text analytical software and text</p>	

	<p>mining techniques are being used to interrogate large literatures. These techniques can be used to identify concepts in complex topics and assist with developing strategies to capture complex topics.</p> <p>This training event will address the challenges of developing search strategies to capture complex topics in large bibliographic databases using different conceptual combinations and search techniques. The training event will also introduce textual analytic and text mining techniques to demonstrate their potential for strategy design and testing. Participants will undertake exercises using open source visualisation tools to investigate terms within sets of records.</p> <p>Example of an advanced search techniques course</p> <p>http://www.yhec.co.uk/training/advanced-search-techniques/</p> <p>Extensive literature searches are the foundation of high quality systematic reviews, health technology assessment (HTA), guideline development and other major projects. Conducting searches to retrieve research evidence from databases and other resources requires a range of knowledge and skills. There are constant challenges to keeping up-to-date with new database features and approaches to achieving efficient searches. Search approaches may need to be adapted depending on the end-product which the search is informing and the resources available. Search approaches increasingly need to be explained to sponsors and other end-users in terms of the extent to which they are fit-for-purpose.</p> <p>This workshop will provide opportunities to learn new techniques, to discuss best approaches, to share insights and to assess variations in current best practice. The workshop will be facilitated by information specialists experienced in literature searching to inform systematic reviews and HTAs and in conducting research into the evidence base for information retrieval. Participants are encouraged to suggest topics / issues in advance for discussion during the workshop</p> <ul style="list-style-type: none"> • It was agreed that CLIST members would like attend these courses. • If possible to do both on 1 day (2 x half day sessions). If this is not possible preference is for “Advanced search strategy design”. • Course would be offered to CLIST members and KSS. • CR to reply to Richard Osborn with response from group. • CR to enquire how many people CRD could accommodate on the course, if they will offer it in London, the cost/pricing structure. • Suggested date of late November. 	<p>CR to reply to Richard Osborn</p>
<p>7. Future afternoon workshops</p>	<ul style="list-style-type: none"> • 3 afternoon sessions of interest were agreed: • New HDAS: invite a speaker from NICE (for next meeting) • Invite Catherine Wardle to run a session about her revalidation 	<p>September Chair to contact NICE</p>

	<p>journals club.</p> <ul style="list-style-type: none"> • A session on a more traditional journals club including critical appraisal. • Agenda item at next meeting: Promotion of libraries 	September Chair to add to next agenda
9. Members update	<p>ZN, CNWL – Library has been approached to put together a 3 day programme for MRC Psych around finding evidence, qualitative and quantitative review. Will be running this in October.</p> <p>AT, Whittington Health Library– Implementing KnowledgeShare. It includes current awareness features.</p> <p>MS, Croydon University Hospital – Has introduced a successful current awareness bulletin. Recently sent out a bulletin on allergy for Allergy week. Organised with local groups in the Trust.</p> <p>CR, City University – Presented at LILAC and Health Science Library Camp about the online library treasure hunt. Has been asked to run a session for library staff about what is a systematic review.</p> <p>CL, RCN – Trialling Patron Driven Acquisition (PDA) of e-books.</p> <p>Several libraries using revalidation as a way to promote library services to nurses. AT reported the reading for revalidation club (Whittington) is booked up till September. CL reported the RCN library has created an online library subject guide for revalidation.</p>	
AOB	<p>JN requested ideas for suitable qualitative papers for critical appraisal sessions. Send ideas to SA who will add to the CLIST web site.</p> <p>Afternoon workshop: KnowledgeShare facilitated by Ben Skinner, Royal Sussex County Hospital</p>	All to send ideas to SA.
<ul style="list-style-type: none"> • Date of next meeting: Thursday 22nd September
